- **Details of Activity:** Civil department has organized a Gender-equality and safety program for all SY B.Tech, TY B.Tech and Final year B.Tech students. Ms. P. K. Figueredo coordinator of civil department addresses in a society, everyone has the right to lead his/her life accordingly without any discrimination. When this state is achieved where all individuals are considered to be equal irrespective of their caste, gender, colour, profession, and status, we call it equality. Equality can also be defined as the situation where every individual has the same rights and equal opportunity to grow and prosper. Gender equality can only be achieved when both male and female individuals are treated similarly. But discrimination is a social menace that creates division. We stop being together and stand together to tackle our problems. This social stigma has been creeping into the underbelly of all of society for many centuries. This has also been witnessed in gender-based cases. Gender inequality is the thing of the past as both men and women are creating history in all segments together.
- **Outcome of Activity:** Once all these menaces will be eradicated, every family will understand the value of a woman and our country will achieve gender equality in a real sense. Women are creating examples everywhere and we all should highlight them to change the scenario and give them equal rights. In the end, the performance of India in the Olympics 2021 is the current example where India has won seven medals. Out of those seven medals, six came in individual events and out of those six medals, female athletes won three. It shows that even after facing such hardship, their performance is at par with male athletes. With so much potential, it is only a matter of time when women will overtake men and have all their abilities on display for the world to see!

- **Details of Activity:** Department of Electronics & Telecommunication Engineering organized a session on "Gender-equality Awareness" for third year students. Higher education and research are key instruments for empowerment and social change. Universities can be powerful institutions for promoting gender equality, diversity and inclusion, not only in the higher education context, but also in society at large. Nevertheless, universities remain both gendered and gendering organizations. To create awareness about such social issues and to create awareness in younger generation about gender equality Bharati Vidyapeeth's College of Engineering Kolhapur taken a initiative to organize a session on "Gender-equality Awareness". In this session a focus was on the difference in terms gender equity and gender equality though it sounds same it has some specific meaning. This session was conducted by Ms. Deepa. D. Karmbalkar Assistant Professor Bharati Vidyapeeth's New Law College Kolhapur.

- **Details of Activity** : Department of Electronics & Telecommunication Engineering organized Expert Talk on "Gender-equality" for final year students. Gender sensitization is the process of transforming men and women's stereotype mentality, a mind-set that strongly believes men and women are unequal creatures that must operate in separate socioeconomic spaces. It aims to educate people on the differences between sex and gender, how gender is socially produced, and gender stereotypes. The goal of gender sensitization is to raise awareness of the relevance of gender sensitivity in the workplace among working professionals. Individuals who are not sensitive to the requirements of one gender may be unable to comprehend the needs of the other. With respect to above department of Electronics & Telecommunication Engineering arranged a session "Expert Talk on Gender-equality" conducted by Mrs. Bhakti .S. Bhosale (Assistant Professor Bharati Vidyapeeth New Law College Kolhapur).for final year students.
