Feedback or Remark About college *

1. Faculty: The faculty / professors are really good at teaching. They are very supportive and helpful but very particular as well when it comes to study and performance of students, which actually helped students like me to learn more.
2. Department Laboratories: The laboratories were good and very well maintained by technical staff, we were enough opportunities / time to make use of them.
3. Overall Campus: The college campus is good and well maintained, every department has enough class rooms, laboratories.

Suggestions:

1. There are lot of new tools and technologies being evolved and used in IT industries, it would be better and helpful for students if departmental libraries can be upgraded accordingly. Example - High configuration computers as a servers, Set up for Cloud Services, Hadoop Frameworks - Big Data, Data Science & Machine Learning etc.
 2. The department and industry interaction events should be increased to give more idea / guidelines to students, Examples - Technical Workshops, Seminars by industry experts etc.
