

## 2. Group Discussion

1. It is an effective tool in problem solving, decision making and personality assessment. GD skills may ensure academic success, popularity and good admission or job offer. To inculcate this, group discussion has been added in F.Y,S.Y, T.Y and B.tech syllabus as part of Professional Communication Skill, Soft skill, Business English and Professional Skills subjects in each year respectively.

Students are motivated to take participation in group discussion and present their ideas. Below are syllabus copies for the same and proofs of group discussions held in college.

**Students are participated in group discussion**

2. Under 5 day's workshop "Communication and Professional Skill", Dr.Vaishali Shinde has organized a Group Discussion on "War between Ukraine and Russia" on 28th April, 2022 for all engineering students. There were 6 groups of 8 students. All groups have expressed their views and highlighted various positive and negative aspect of the given topic. It was a healthy discussion pointing out pros and cons of the war.

This activity helped the student to know about various aspects of participative learning like how to start discussion, how to express our views and conclude the discussion. Total 48 students participated in the discussion. Dr.Vaishali Shinde has judged the event and shared her views on overall group discussion. The event was coordinated by Mr. P. A. Kharade.
