NAAC SSR CYCLE- 2

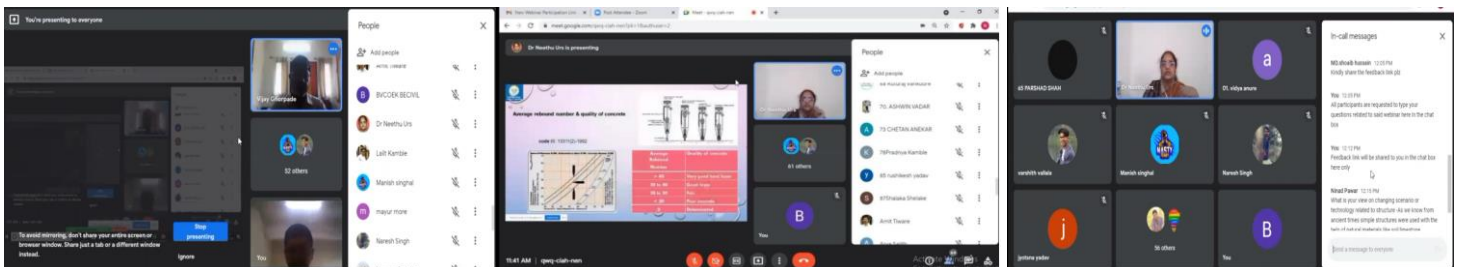

Criterion 3	Research, Innovations and Extension
Key Indicator 3.2	Innovation Ecosystem
3.2.2 Number of workshops/seminars/conferences including on Research Methodology, Intellectual Property Rights (IPR) and entrepreneurship conducted during the last five years	

Seminar: 'An overview of Non-Destructive and Health Monitoring Techniques used to Evaluate Civil Engineering Structures'

BHARATI VIDYAPEETH'S COLLEGE OF ENGINEERING, KOLHAPUR

- **Organizing Department: Civil Engineering Department**
- **Name of Activity: Online webinar on subject “An overview of Non-Destructive and Health Monitoring Techniques used to Evaluate Civil Engineering Structures”**
- **Name of Coordinator: Prof. N. A.Mohite**
 - **Name of Resource Person :** Dr Neethu Urs, Associate Professor, Department of Civil Engineering, Dayananda Sagar College of Engineering, Bengaluru.
- **Date of Activity :** 25th June 2021
- **Participants:** College students, Faculty, Industrialist, Technical Experts
- **Details of Activity:**
- **Non-destructive test(NDT)** is a method of testing existing concrete structures to assess the strength and durability of concrete structure. In the non-destructive method of testing, without loading the specimen to failure (i.e. without destructing the concrete) we can measure strength of concrete. Now days this method has become a part of quality control process. This method of testing also helps us to investigate crack depth, micro cracks and deterioration of concrete. Non-destructive testing of concrete is a very simple method of testing but it requires skilled and experienced persons having some special knowledge to interpret and analyze test results. Structural health monitoring (SHM) involves the observation and analysis of a system over time using periodically sampled response measurements to monitor changes to the material and geometric properties of engineering structures such as bridges and buildings. Vote of thanks was given by Prof.N.A.Mohite Sir.
- **Outcome of Activity: Updating of Student’s Knowledge.**
 1. Students can gain a combined knowledge about both theory and practical.
 2. To enhance their practical knowledge in subject Concrete Technology.
 3. Students understood aid of modern technology, real time control of structures (Active Structural Control) based on the information of sensors and what are the measure consequences at construction site while doing the site work.

Subject: - Invitation as a Resource Person for online webinar on subject "An overview of Non-Destructive and Health Monitoring Techniques used to Evaluate Civil Engineering Structures" at Bharati Vidyapeeth's College of Engineering, Kolhapur, on 25th June 2021.

Dear Madam,

With reference to above mentioned subject, Bharati Vidyapeeth's Civil Engineering Department is going to organize an online webinar on 25th June 2021.

It is an honor and privilege to invite you as a resource person to address our students for the subject "An overview of Non-Destructive and Health Monitoring Techniques used to Evaluate Civil Engineering Structures". Your thoughts would enable our students to gain knowledge from your expertise and experience. It has been a practice to arrange such Guest lectures in this institute for 60 minutes duration followed by a question answer session of 30 min.

Thanking you,

Yours faithfully

Subject: Thanking Letter.

Dear Madam,

We are thankful to you for giving us your time and sharing your keen knowledge with us on topic "An overview of Non-Destructive and Health Monitoring Techniques used to Evaluate Civil Engineering Structures" organized by Department of Civil Engineering, Bharati Vidyapeeth's College of Engineering, Kolhapur, on 25th June 2021.

The lecture was well received and highly appreciated by the participants. We hope that in coming future we always get your precious knowledge and wisdom.

Thanking You,

Dr. V.R. Ghorpade
