BHARATI VIDYAPEETH'S COLLEGE OF ENGINEERING, KOLHAPUR

- **Organizing Department** : Computer Science & Engineering
- **Name of Activity** : Donation at AVANI Sanstha Kolhapur
- **Date of Activity** :10/01/2022
- **No. of Participants** : 68
- **Details of Activity** :

A Visit of SY, TY and BE Students of computer science & Engineering Department was organized at Avani Sanstha Orphanages for Children, Kolhapur on 10/01/2022. This visit was for contribution to a social work carried out for children by Avani Sanstha. Students of our college collected essential items required in our day-to-day life along with a few toys for these children. All things collected by students were donated to this sanstha. Organizing such activities will be helpful to inculcate a habit of contribution to society in our students.

- **Outcome of Activity** :

1. To develop emotional intelligence

Social events develop social skills and empathy—the outward-oriented dimensions of emotional intelligence (EQ). The interactions or conversations elicited by events helps students build relationships, understand different perspectives and engage other cultures. Social events provide an opportunity to expand one’s social circle.

2. To take a break

All work with no breaks diminishes productivity. It’s good to take one’s mind off the troubles of exams or reports from time to time—something that participating in events can provide. Whether it’s by watching a movie or volunteering for a fundraiser, a “study break” lets students recuperate by focusing on activities that exercise other creative, mental muscles.

3. To build relationships

Participating in on-campus social events enables students to meet people who share common interests and individuals who can help them academically, or even professionally.

- **Organizing Department** : National Service Scheme (NSS) Unit BVCOEK
- **Name of Activity** : Organization of No Vehicle Day at Institute
- **Date of Activity** : 27th - 28th July 2021
- **No. of Participants** : 60 (students, faculty and staff members)
- **Details of Activity** : Now a day's rise in pollution is very serious problem. To raise environmental sensitivity and awareness among students about the vehicular pollution. To encourage younger generation for using the bicycles and public transportation system in reducing the carbon footprints. Bharati Vidyapeeth's College of Engineering Kolhapur decided to arrange no vehicle day in the college campus where in no bikes, cars or any polluting vehicle was allowed. All the faculty and students were told to use bicycles to mark the day. This type of activity will be helpful to lower the level of pollution which can be contribution of individual towards maintaining the healthy environment. For this everyone from the college showed interest from students, staff and faculty actively participated in this activity. This is an initiative taken by institute under the program of green environment initiated by the government.
- **Outcome of Activity:** Such activity can inculcate habit of contribution of individual towards protecting environment.

- **Organizing Department** : National Service Scheme (NSS) Unit BVCOEK
- **Name of Activity** : Arrangement of Parking Discipline at Institute
- **Date of Activity** : 2nd -3rd Aug 2021
- **No. of Participants** : 60 (students, faculty and staff members)
- **Details of Activity** : Being a well-developed country one of the most common problems today in India is a saturation of parking spaces. Vehicles continue to outnumber existing parking spaces thus clogging roads. Incidences of violence over occupancy deformed cars due to a space crunch and overcharging for parking are some problems that result.. However, the better solution to the problems mentioned above is to follow and maintain rules of parking discipline. In day-to-day life we come across many situations related to parking problems which can be avoided if individually we follow the simple rules of parking discipline. With respect to this NSS unit of BVCOEK arranged Parking Discipline program in college campus with help of NSS unit of BVCOEK. In college campus also parking discipline is followed in order to inculcate habit of following rules in younger generation. Different parking slots are allocated for student parking Staff parking & Principal parking.
- **Outcome of Activity:** Arranging such activity can develop good habits in younger generation which may help to become a good citizen.

NSS Volunteers guiding all members and maintaining Parking Discipline.

- **Name of Activity** : Environment project -Study of pond ECO system
- **Date of Activity** : 23rd Jun 2022.
- **No. of Participants** : 18 (Students & Staff)
- **Details of Activity** : Second Year students of college conducted a visit at Krishna Talao Bambavde Sangli to study pond ECO system. In environmental Engineering all aspects are studied related to environment issues. In order to get practical experience of these facts few projects are carried out by students. In study of pond ECO system students visited Krishna Talao Bambavde Sangli and studied various points related to pond ECO system.
- **Outcome of Activity:** Students understood importance of pond Eco system to protect environment.

8. Visit photo.

Students taking Observation about Eco system during project

2. Plants growing on the pond.

This pond consists of limited type of plants growing on the water. The pond mainly consists of green algae, blue-green algae, water lettuce, etc. as the water is used for drinking purpose, the pond is cleaned once in month by Nagar Palika of Bambvade and private NGO's so the percentage of growing of plants on pond are less.

Photo-Eco System.

3. Animals in the pond.

The pond consists of variety of small fishes, small prawns, lata fish, toad, frog, tadpole, snail, leech, crab, checkered kill back snake, etc. In winter season the pond gets full with various types of birds mainly the migrated bird species. Differ from that the local bird species like Little Egret, Ducks, Geese, Swans, White throated Kingfisher, Red wattled lapwing, Purple heron, Painted Stork, etc. are found around this ponds area.
