a.1 Value Added Program for holistic development of students

Context:

To promote holistic development of students is always at utmost priority for any HEI and college is fortunate to have supportive leadership and management. College encourages various departments to organize value added programs to bridge the gap between industry and academia for students. These include seminars, workshops, national conferences and technical activities throughout the year for students. Such programs nurture students to develop into industry-ready professionals and competent entrepreneurs. These programs provide exposure to the latest technological developments and inculcate inter-disciplinary skills which blend them into a global citizen's profile.

Apart from this, college encourages organization of value added programs such as Gender Sensitization, Professional Ethics and Human Values, Stress Management and so on. These programs influence students' attitudes and awareness of self, their roles and responsibilities in society.

The details of activities related to this are summarized in table below:

Sr. No.	Particulars	Supporting Document
1.1	Value Added Programs 2021-22	View
