- **Details of Activity** :

Department of computer Science and Engineering organized a two days' workshop on "Computer Network" dated 27th January 2022 and 28th January 2022. Workshop was conducted in online mode. Mr. Ranjit Vandkar and Mr, Dayanand Kamble from Bits Techno Development Private Limited, Kolhapur has provided a valuable guidance on the basics of computer networks, LAN and other aspects related to networking as a resource person. They also shown practical implementation of LAN creation and crimping.

Contents covered in workshop are

- Introduction to network
- Types of network
- Network devices and media
- Addressing
- Implementation of LAN network
- Crimping
- IP address assigning
- Connectivity checking and troubleshooting

More than 50 students were participated in online workshop through Google meet platform.Google Meet joining info Video call link: https://meet.google.com/okd-zkuu-uxb.
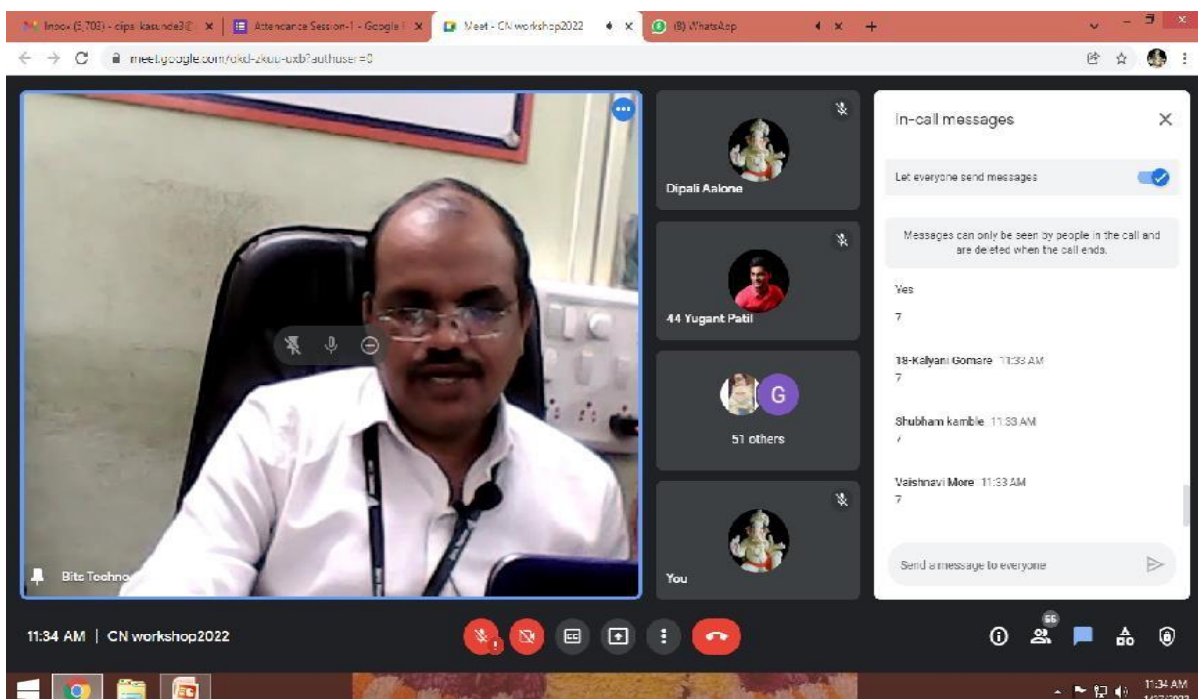

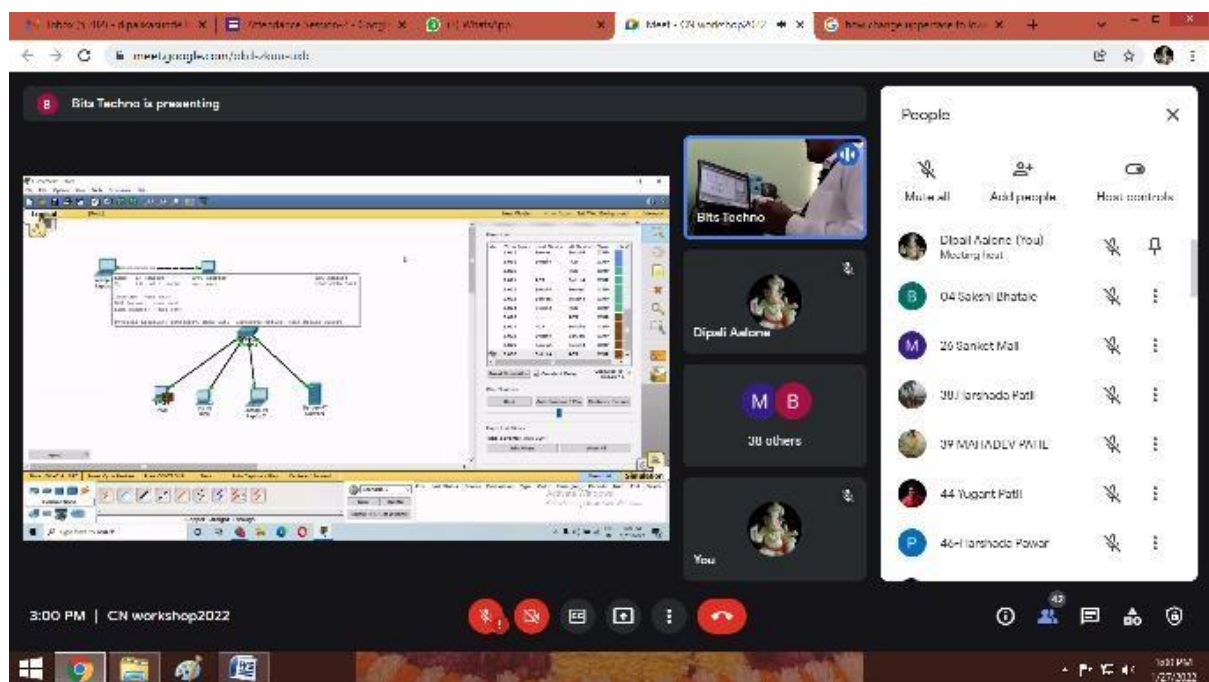

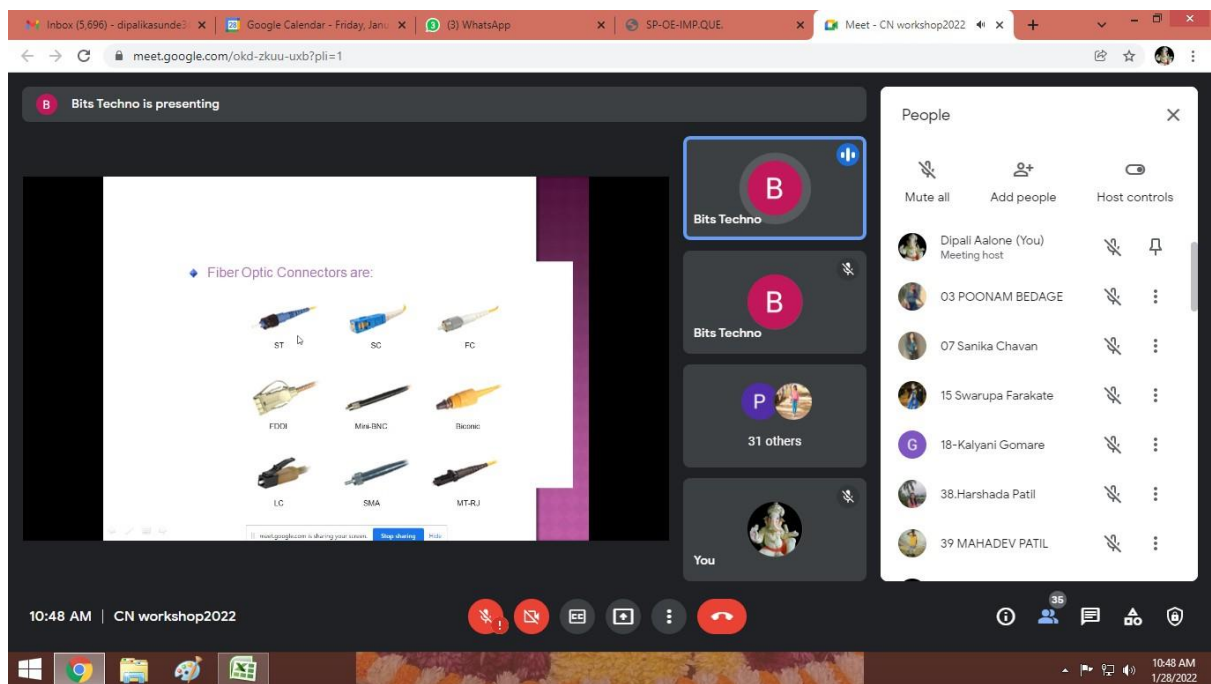

- **Outcome of Activity** :

Students were able to understand basics of computer network and the practical implementation of creation of LAN network and various network devices. Students are motivated towards different aspects of computer networking.

- **How it Bridges gap between Industry and Academia:**

With the implementation of LAN creation resource person also showed different network devices and explained the practical use of it. They also showed the implementation of crimping. Student now will have practical Knowledge about computer network concepts and LAN creation and different devices used for network. Through this workshop student are motivated for Computer networking courses such as CCNA, red hat Linux, network security etc.

- **Details of Activity**   **:**

      Two days **Faculty Development Program** on topic **"Advanced SQL and NoSQL Databases"** was organized from 27th Nov. to 28th Nov. 2021. It is arranged by considering revised syllabus of final year B. Tech. for Advanced Database Systems subject. So, all faculty members those who are teaching subject Advanced Database Systems along with final year students of CSE participated in the workshop. The main agenda for the workshop was to train the faculty members for teaching the subject in practical oriented manner and to let the students familiar with the new technologies introduced in the subject. Detail information about SQL and No SQL databases was shared by Mr. Prasad Potdar with the participants. He had given a very good exposure to all these tools with real hands-on training in the online mode. He also provided all necessary software to install these tools. Each session was followed by a question-and- answer session and Mr. Prasad Potdar responded well for the queries raised by the facultyand students.

    In the workshop following points were covered:

1. Basics of SQL
2. Advanced SQL
3. Postgrey SQL
4. MongoDB
5. CouchDB
6. NodeJS

- **Outcome of Activity   :**
  - Faculty and Students learnt to execute various SQL queries on MYSQL, Postgrey SQL Databases.
  - They were able to execute different commands based on No SQL databases.
 - Following faculty members participated successfully in the workshop.

- **Date of Activity** : Friday, 16th July 2021.
- **No. of Participants** : **101**
- **Participants from** : S. Y., T.Y. & B.E. Students
- **Resource Person** : **Mr. Amey Tambe, SoftTech Data Securities, Pune**
- **Details of Activity:**

Mr. Amey Tambe, SoftTech Data Securities, Pune (Information Security Professional) was resource person of the webinar. Students of SY, TY and BE class were present for the program. Session was started with introduction of the trainer. Mrs. S. M. Mulla - Head of CSE dept., introduced profile of the trainer and gave brief information about his professional experience in the IT industry.

On behalf of CSE department Mrs. Mulla Shagupta welcome all for inauguration ceremony of Center of Excellence for Internet of Things (Funded by AICTE under MODROB Scheme). Under the guidance of principal Dr. V. R. Ghorpade sir, we submitted the proposal for this project in the year 2019. It was sanctioned in July 2020 and we received the funds from AICTE under MODROB scheme in March 2021. Also, she explored the objective behind establishing this lab as part of department. We established it in association with Softest Data Securities, Pune. Principal Dr. Vijay R. Ghorpade sir had delivered thoughts on importance of Machine Learning and IoT in today's era.

Mr. Amey Tambe, covered following important points during sessions. He has given information above latest technologies in the field of IoT and Machine Learning. He demonstrated few real time applications which are very useful in Health and Security Industry.

2 hours Session was organized on Friday, 16th July 2021. Total 101 students and all faculty members were participated in the program through online google meet platform. Google Meet Video call link: https://meet.google.com/feu-xety-xhq

- **Outcome of Activity:**

    Resource person explored many case studies and gave innovative ideas to students for their major project work selection in the field of Machine Learning and IoT. Students implemented IoT based projects by utilizing equipment provided under the funded LAB.

- **How it Bridges gap between Industry and Academia:**

    Mr. Amey Tambe is consistent performer with a strong record of superior performances, seeking challenging assignments across the industry. As a InfoSec specialist qualifications include a degree in computer Applications; CISSP, CISA designations; and detailed knowledge of security tools, technologies, and best practices. Ten years of experience in the creation and deployment of solutions protecting networks, systems and information assets for diverse companies and organizations.

    He worked with various organizations and Government to handle their corporate, complicated Network as well as Data Security practices. Such an expertise provided to students to gain knowledge in Machine Learning application domain. It helped students to decide their topics for final year projects.

One Week Hands-On Online Workshop on Project Development using Agile Methodology on Azure DevOps was organized from 12/10/2020 To 17/10/2020 for BE Students. The main agenda for the workshop was to let the students know the knowledge of Agile Methodology on azure devops in the field of computers. Knowledge was shared by Mr. Kiran Patil with the audience regarding how to use the agile methodology while developing projects which is the need of current industry. Followed by a question and answer session.

In the session following points were covered:

- Use of agile and other development processes and methods;
- Demand for an increased rate of production releases – from application and business unit stakeholders;
- Wide availability of virtualized and cloud infrastructure – from internal and external providers;
- Increased usage of data center automation and configuration management tools;
- Increased focus on test automation and continuous integration methods;
- A critical mass of publicly available best practices

- **Outcome of Activity**   :

They learnt Project Development using Agile Methodology on Azure DevOps with basic fundamentals of DevOps Technology.

- Students got to know about the new trending Situations in the field of computer.
- Also learnt how to develop a project into the real world product so that it will help them to become an entrepreneur.

- **How it Bridges gap between Industry and Academia:**

  This Workshop was intended to give the students insight into latest trends and technological advances into the area of computer science. Also Students got ideas about Agile Methodology on Azure DevOps.

- **Details of Activity** :

     Workshop on Computer Network for academic year 2019-20 was conducted on 23/08/2019. Dr. V. R. Ghorpade - Principal, Bharati Vidyapeeth's College of Engineering, Kolhapur, was Chair Person of the meeting. It started with Lord Saraswati Poojan and Deep Prajwalan. Respected Principal Dr. V. R. Ghorpade felicitated Mr.Omar Memon. Respected principal sir addressed all Students about the workshop. He also shared valuable information regarding career opportunities in Computer Network for CSE students.

     Trainer started the session with introduction to Computer Networking. Some more topics as 'Role Of Internet in our daily Lives', 'Evolution of corporate Networks' get covered in the same session.

     In Second session trainer gave the demo of operation of the Computer Network with devices like Switch, Router. The session further continue with the aspects of Network Engineering as a career and certification in this field.

     Last session was on personality Development that covered topics like Communication skills for corporate World, Mock Interview practice and the session ended with questions and answer.

- **Outcome of Activity** :
  - Students understood the basic knowledge of Computer Networking and also learned the working of Internet.
  - Students learned the working of Networking devices like Router, switch.
  - Students got the exposure of Career and Business Opportunities in the field of Computer Networking.

- Students learned the skills required at Interview and in corporate world so that they will easily face the interview.

- **How it Bridges gap between Industry and Academia:**
  - This workshop provided hands-on networking basics, taught by an experienced technical trainer. Students learned about network devices like hubs, switches, routers, firewalls, repeaters, gateways, and more. It will help students to apply Networking knowledge in various Computer Networking industry.

    Mr. Jay Mishra covered following points of Python Programming during workshop.

-Python Introduction

-Installing Python / Programming Basics

-Gain knowledge of Regular Expressions, looping functions and concepts of OOP

-Components and Functions

-Data Science for Python

-Mathematical and Scientific Computation with Python

-Machine Learning with Python

-Projects, Benefits, Future & Job Scope

    All faculty members of the department were also present for the inaugural function which is conducted in Central Computing Facility. Workshop was organized on Friday, Saturday and Sunday of the week. Total 29 students and 2 faculty members participated in workshop.

- **Outcome of Activity:**

    Students and faculty members were participated in interactive sessions of 3 days hands-on-workshop on "Python Programming- the Practical Approach" which covered the topics like exposure to Python programming language, basics of GUI development, Hands-on for the different Python tools . Trainer has delivered good multimedia contents to help students to grasp the terms easily and taken group discussions to encourage innovation.

- **How it Bridges gap between Industry and Academia:**

    Geekslab Technologies Pvt. Ltd. is an integrated solution provider. Being a knowledge platform, they believe in sharing their domain expertise through our workshop programmes. Python is general purpose high level programming language whose design philosophy emphasizes code readability; it works more quickly and integrate your systems more effectively.    Discussion on following points done during the workshop

A) National Employability Report, Engineering Graduates – 2014 and 2016 only 18.33% of the engineers are employable. The 82 % engineering graduates are weak in programming

and algorithm skills, soft and cognitive skills, domain skills, English speaking and comprehension skills and analytical and quantitative skills. Recently National Association of Software & Services Companies (NASSCOM) and other private firms surveyed that only 25% graduates in India are employable.

B) Skills required

Table 1: Skills under Four Factors

Specific Skills	Core Skills	Personal Characteristics	Communication Skills
• Database knowledge • Spreadsheet knowledge • Word processing knowledge • Ability to adapt to changing technology • Technical skills • Mathematical skills	• Self confidence • Critical thinking • Creative thinking • Interpersonal skills • Leadership skills • Experience with real world problems	• Business ethics • Professionalism	• Listening skills • Speaking skills • Written communication

C) Algorithm
- Definition
- Steps
- Space and time complexity
- Selection of appropriate data type/structure
- Multiple approaches to solve a problem

D) Divide and conquer problem solving technique
1. Working steps and programming logic:
2. Applications: Sorting, Binary search etc.
3. Not Applicable to
   • Knapsack problem
   • Travelling Sales Person problem

E) Greedy problem solving technique
1. Working step sand programming logic:
2. Applications: Fractional knapsack problem, Minimum cost spanning tree etc.
3. Not Applicable to
   • 0/1 knapsack problem
   • Shortest path problem
   • Travelling Sales Person problem
   • Queen Problem

F) NP problems and applications. Probabilistic problem solving methods.

G) Demonstration of Backtracking program for problem solving

H) Case study: Research paper of scheduling problem

I) C Programming standards

- **Outcome of Activity:**

The students learn different techniques for problem solving and programming. The techniques learnt by the student will be helpful for them during writing programs of any programming language. As per oral feedback received from the students, during the workshop some topics are covered which are very important and students did not know them.

- **No. o Participants** : 148
- **Participants From** : TY students of all branches
- **Resource Person** : Mr.Yameen Hakim Director Bluebox Technology Pune.
- **Details of Activity** : Department of Electronics & Telecommunication has organized five days STTP on 'Core to Advance Python Programming' from 18th Apr 2022 to 22nd Apr 2022 for third year student of all branches. Currently in software industry Python is a language which widely used for programming purpose. In order to understand advance features of this language a hands on session is provided to students by resource person Mr.Yammen Hakim. In the session following points were covered:

  - Fundamentals of OOP.
  - Basics of Python.
  - Python program flow control.
  - Modules and packages.
  - **Outcome of Activity** : Students gain knowledge regarding basics and advance features of python programming and able to work in python programming environment.
- **How it Bridges gap between Industry and Academia:** Organizing such workshop can be beneficial to students in order to aware about the latest technologies used in Industry and current trends in market.

Recruitment is a process of finding and attracting the potential resources for filling up the vacant positions in an organization. It sources the candidates with the abilities and attitude, which are required for achieving the objectives of an organization.

Recruitment process is a process of identifying the jobs vacancy, analyzing the job requirements, reviewing applications, screening, shortlisting and selecting the right candidate.

To increase the efficiency of hiring, it is recommended that the Training team of an organization follows the five best practices.

- Recruitment Planning

- Recruitment Strategy

- Searching the Right Candidates

- Screening / Shortlisting

- Evaluation and Control

- **Outcome of Activity:** The Recruitment and Selection Process teaches practical techniques and strategies that ensure that your organization makes fully informed hiring decisions to build a workforce that matches the organization's needs.

- **How it Bridges gap between Industry and Academia:** This seminar was intended to demand insight into complementary training of engineering graduates between academic education and industry requirements.

- **Date of Activity** : 8th -9th May 2021
- **No. of Participants** : 98
- **Resource Person** : Mr.Dinesh Dhumal (World Of Automation Pune)
- **Details of Activity** : This workshop is conducted for two days.
  Day 1 is conducted in two sessions with hands on training to students in online mode which include following points covered Basics Of PLC: 1) Role of PLC in Automation. 2) Introduction to PLC Hardware. 3) Block Diagram of PLC 4) Introduction to Field Devices Attaches to PLC. 5) Types of Input and Output. 6) Sink & Source Concept. 7) Protocols Used in PLC communication
  Day 2 is conducted in two sessions which include following points 1) Creating New SCADA Application 2) Creating & Editing Display With animation 3) Creating Real & Historical Trend 4) Creating alarms & Events 5) Writing Logic Through Script 6) Connectivity With Database(Excel) 7) Communication of PLC & SCADA.

- **Outcome of Activity** : Students gain knowledge regarding PLC SCADA programming and will able to work in industry environment in future.

T.E. Engineering Students. Under this workshop presentation and hands on session conducted on Wire and Microstrip Patch antenna Design and Its analysis Using HFSS are as follows

Day	Presentation& Hands on session	Details of content(Objectives)
1	**Content focus** 1. Antenna design and its mathematics 2. Fabrication process of various antenna 3. Polar plot & its interpretation for mobile and wifi antenna 4. Link budget & noise budget 5. Spectrum measurement, Interference measurement, Jamming Technique ACPR,OCBW,NW,RBW	 - Hands on practice for digital and analog LINK development - Spectrum measurement and its use in telecom link management - Hands on RF antenna development (on the spot Antenna fabrication) - GPS mapping for RF SURVEY - Hands on antenna parameter measurement
	Hands on practice for RF antenna development (on the spot antenna fabrication by participant)	Student Participated in a groups and according to specific design specifications given by expert they developed different types of wire

		antennas such as:
		1. Collar Antenna
		2. Helical Antenna
		3. Yagi –Uda Anteanna
		4. He Patch Antenna
		5. Monopole Antenna
		6. Slot Antenna etc.
		The designed antennas were tested using spectrum analyzer.
2	Microstrip Patch antenna Design and Its analysis Using HFSS	• On the day 2- Presentation and Hands on RF-Microstrip patch antenna given by expert. • All participants were asked to design and simulate the analysis of RF-Microstrip patch antenna on specification given by expert.
3	Valedictory	After successful completion of workshop: • All Participants were awarded with a certificates

- **Impact of Activity:**- Students are able to work in team environment and apply the knowledge acquired during their course of study.

- **Date of Activity :** 8/03/2018

- **Participants:** TE and BE Civil Engineering

- **Details of Activity:** speaker explained the objective of The Real Estate (Regulation and Development) Act, 2017 as an legislation to establish an authority for regulation and promotion of the real estate sector and to protect the interest of consumers. Explaining the salient features the speaker informed Establishment of Real Estate Regulatory Authority (RERA) in which it states, State Governments to establish the RERA in their respective states in a span of one year time limit prescribed. The speaker also mentioned that "The real estate industry is an industry that supports 250 axillary industries to bring up one building hence one can realize the importance of this regulatory Act". Until the establishment of RERA, the State Government shall designate any Regulatory Authority to perform the functions of RERA and to play an oversight and regulatory role applicable to both commercial and residential projects. Explaining on Registration of projects with RERA the speaker informed the Projects covered are Commercial, residential, plotted developments, ongoing projects where completion certificates not issued are also covered. The Speaker then explained the impact of RERA on developers, customers, real estate, structure, taxation, etc. before concluding his session.

The Speaker also explained the features of Bankruptcy Code, the legal frame work, Liquidation process, Insolvency resolution process for corporate debtors, Insolvency resolution process for non-corporate debtors, India's Bankruptcy laws etc. before concluding his session. More than 50 students were attended the seminar.

Er.Milind Naik was modest in answering the questions of the audience as well as discusses a long awaited. The programme ended with vote of thanks.

- **Details of Activity:** The infrastructure industry is not limited to the construction of roads but also encompasses roads, railways, power, water supply, airways to telecommunications, oil and gas, and so on. The Planning Commission of India, Govt. of India has stressed on the need and requirement of infrastructural development in India through a number of policies and initiatives for a growing economy of India. The initial projections for infrastructure in the 12th Five Year Plan (FY13-17) is at US $ 1 trillion. The policies such as Pradhan Mantri Gram Sadak Yojna for roads, Sahaj Bijli Har Ghar Yojana (Saubhagya) , Green Energy Corridor Project, smart cities development, Pradhan Mantri Awas Yojana (Urban), Atal Mission for Rejuvenation and Urban Transformation (AMRUT), and Swachh Bharat Mission (Urban). etc some of the few infrastructure projects.Infrastructure development not only generates job opportunities but also there is wide scope for business. Though infrastructure world makes civil engineering impression but as mechanical engineering there is ample scope for business. A mechanical engineer can have business models such as Solar Panel Manufacturing, Aluminum Window/Door Manufacturing Business, Mechanical Engineering Consultancy Firm, Waste Disposal Machines, Nut Bolt Manufacturing, construction Machine manufacturing and Design, Manufacturing Household Gadgets, Packing Supply Distributor, Installation of Security equipment's etc. During Question-and-answer session student rose question of rising up funds, licensing, labor laws etc. to solve these issues students are advised to contact Ms. Vanita Patil (Project Coordinator) Maharashtra Udyog Bhavan. EDC cell is very

thankful to Mr.S.J Kadam Sir HOD Mechanical Dept. for arranging such interactive session for BE mechanical students. The vote of thanks was given by Mr.Rajigare sir.

The GATE 2019 score is calculated using the formula

$$GATE\ Score = S_q + (S_t - S_q)\frac{(M - M_q)}{(\overline{M}_t - M_q)}$$

where,
M is the marks obtained by the candidate in the paper, mentioned on this GATE 2019 scorecard
M_q is the qualifying marks for general category candidate in the paper
$\overline{M}_t$ is the mean of marks of top 0.1% or top 10 (whichever is larger) of the candidates who appeared in the paper (in case of multi-session papers including all sessions)
$S_q = 350$, is the score assigned to M_q
$S_t = 900$, is the score assigned to $\overline{M}_t$

In the GATE 2019 score formula, M_q is 25 marks (out of 100) or $\mu + \sigma$, whichever is greater. Here μ is the mean and σ is the standard deviation of marks of all the candidates who appeared in the paper.

Qualifying in GATE 2019 does not guarantee either an admission to a post-graduate program or a scholarship/assistantship. Admitting institutes may conduct further tests and interviews for final selection.

The GATE 2019 score is calculated using the formula

$$GATE\ Score = S_q + (S_t - S_q)\frac{(M - M_q)}{(\overline{M}_t - M_q)}$$

where,
M is the marks obtained by the candidate in the paper, mentioned on this GATE 2019 scorecard
M_q is the qualifying marks for general category candidate in the paper
$\overline{M}_t$ is the mean of marks of top 0.1% or top 10 (whichever is larger) of the candidates who appeared in the paper (in case of multi-session papers including all sessions)
S_q = 350, is the score assigned to M_q
S_t = 900, is the score assigned to $\overline{M}_t$

In the GATE 2019 score formula, M_q is 25 marks (out of 100) or μ + σ, whichever is greater. Here μ is the mean and σ is the standard deviation of marks of all the candidates who appeared in the paper.

Qualifying in GATE 2019 does not guarantee either an admission to a post-graduate program or a scholarship/assistantship. Admitting institutes may conduct further tests and interviews for final selection.

Dear Mayuri Mansing,

I am delighted to inform you that you have been awarded the University of Liverpool's Commonwealth Postgraduate Bursary.

The award value is a deduction of £2,000 from your tuition fees for your postgraduate taught programme. You are eligible for this award on the basis that you are a citizen from a Commonwealth country, classified as a new student to the University of Liverpool, self-funded, and are starting your studies in academic term 2022/23.

You do not need to apply for the award. The award is automatically deducted from your fee amount and will be combined with other awards that you are eligible for. You will receive a separate email if you are eligible for another award.

Please see our postgraduate funding webpage for a full list of scholarships and awards that may be available to you.

The University of Liverpool reserves the right to withdraw the scholarship at any time if students are found to be ineligible as per the University's Scholarship and Bursary regulations or if the terms and conditions are not adhered to.

If your tuition fees for your postgraduate programme are paid by a sponsor (a government, commercial organisation or official body who pay all or part of your fees on your behalf; or a contractual discount has been agreed between the University and your sponsor that is applied when you pay your fees), I regret to inform you that will not be eligible for this award.

I would like to congratulate you on receiving this award and look forward to welcoming you to the University when you when you begin your studies.

Energy conservation

1. *Alternate sources of energy and energy conservation measures*

- **Solar energy:**

Sustainability/Alternate Energy initiatives Installed Grid connected PV Solar System for the campus. To reduce carbon footprint with sustainable future the Indian government is encouraging the utilization of green source of energy like solar with subsidies. To protect the nature it isnecessary to use green energy in place of fossil fuels. Regarding this Bharati Vidyapeeth's College of Engineering installed solar panels having capacity of 139.83KW

- **Use of LED bulbs/ power efficient equipment**

One more step to save energy institute has installed LED bulbs in the building and campus

Subject: Installation and commissioning of 142.78 KWp Roof-Top Solar PV Power Project at Bharati Vidyapeeth's College of Engineering, Near Chitranagari, Kolhapur, Maharashtra 416013.

Dear Sir / Madam,

This is to certify that We M/s SR Energy Consultants has commissioned 142.78 KWp Solar roof top power project at Bharati Vidyapeeth's College of Engineering, Near Chitranagari, Kolhapur, Maharashtra 416013.

The project is developed using Canadian solar make PV modules and SMA make Solar String Inverters. The said project was commissioned in Month of January 2022.

The said Solar PV Project (SPP) is operational and is in well maintained condition from the date of the commissioning. Generation achieved from the SPP over the period of operation found satisfactory.

Water conservation

1) Rain water harvesting

Water is a precious and finite natural resource. Water is a lifeline for planet earth. Without water there is no life. So it is very important to use our present water sources judiciously and try to save as much water as possible by using various water conservation measures. So to save this precious natural resource our institute has installed Rain water harvesting plant. The institute has roof top rainwater harvesting system. There is enough open space, channels to harvest the rainwater and plantation to reduce evaporative loss and soil erosion

The Rain Water Harvesting System consists of

1. No. of water filters: 9 Nos

2. Capacity of filter: 1000 lit. per hour.

3. Underground water storage tank: Capacity 75000 lit.

4. A bore well

5. 110 mm PVC pipe line.

6. Total terrace area covered: 3500 sq.m.

7. Amount of water collected from roof-top = $3500 \times 985 \times 10^{-3} \times 0.85 \times 0.8 = 2344.3$ m3 = 23,44,300 lit.

8. Procedure:

1. Rain water from all terraces is collected by providing 110mm PVC pipeline as shown in photographs.
2. All pipelines are fitted with water filters to filter collected rainwater.
3. The filtered rainwater of main building is stored in underground water tank and utilised for various purposes such as gardening, flushing of bathrooms and toilets etc.
4. The filtered rainwater of mechanical building, workshops and boys hostel is filled into the borewell. It results in ground water recharge.

Waste Water Recycling

The waste water generated in the college campus we are not going to discharge it directly in nature. We have small scale sewage treatment plant. The waste water generated in washrooms, canteen and the waste water in the premises sending in Sewage treatment plant for further treatment. This treated water is used for gardening purpose

b) A sewage treatment plant (decentralized waste water treatment plant) having capacity 50000 liters per day is installed in the premises. This treated water is used for gardening purpose.

The decentralized waste water treatment plant System consists of

1. Drainage line 110mm PVC pipe.
2. Inspection chambers. 3. Septic tank having capacity: 125000 lit.
4. Sewage Treatment plant: 50000 lit per day
5. Underground water storage tank: Capacity 75000 lit.

Procedure:

1. The wastewater from bathrooms and toilets is collected by pipelines to the chambers.
2. All the chambers are connected to the septic tank having capacity of about 125000 lit.
3. From septic tank, water is lifted to sewage treatment plant where the treatment of wastewater is taking place with filtration & disinfection.
4. The treated water is stored in underground water storage tank having capacity 75000 lit.

5. From underground water tank the water is distributed for the purpose of gardening, watering of trees in the college campus area
